

Campbellford Memorial Hospital Foundation Show

East Central Ontario Art Association

We are very pleased to partner with Campbellford Memorial Foundation in curating a permanent rolling show of members' art.

We display approximately 20 works from members, changing the works out every 6 months. Sales are handled by the Foundation office which is on site. The space used is the corridor leading from Emergency and Admitting departments to Diagnostic Imaging and Pathology Departments. It's a well-travelled route and gives us great exposure. The corridor is 8 foot wide which limits the size of work to be viewed properly, plus having a size restriction allows us to hang more works.
