**Art Cunanan**  
“Loosen Up with Watercolour”

This dynamic workshop will help you to “loosen up” your watercolours. Amazing demonstrations from sketches to finished paintings will guide you on your journey.

*Learn how to make luminous landscapes while expanding on the importance of values. Take advantage of shaded areas to direct the viewer’s focus.*

*Whether just starting out in watercolour or experienced in the medium, this workshop will hone your skills as you follow the steps to develop a painting that not only captures the essence of the moment, but also provides a feast for the viewer’s eyes.*

**Susan Outlaw**  
“Waterscape in Oils”

Understanding waters reflections, colouring and transparent quality is key to painting a realistic waterscape.

*In this workshop, the secrets of painting water will be revealed as you go from photograph to sketch to oil and complete one or two finished waterscapes of your own.*

*We’ll explore composition, and unpack the process of “alla prima” painting to capture the essence of our subject.*

*We will also review samples of waterscape/seascape artwork. Lots of group and individual instruction provided throughout.*

**Anita Wood**  
“Mixed Media Fun”

Get out of your comfort zone, find freedom, have some fun and finish a beautiful abstract painting, two or three!

*“Paint by Direction!” begins by drawing lines and shapes, applying paint and then evaluating! Is it finished as is? Does it ask for collage? Or will you develop it into a landscape or floral? This is just the beginning!*

*As the workshop continues you will paint an abstract landscape from start to finish.*

*As a finale, we will repaint an old painting by adding layers, glazes and having fun with negative spaces. Let the painting guide you and you will be surprised!*
