Mark making in colour. Exploring the marks we can use to make trees, fields, mountains and water in motion; a landscape. Making these marks with ease and confidence; producing beautiful and descriptive marks. Avoiding the contrived to make the marks appear natural. Learning to make these creative marks fast and loose. Using colour to control focus, overall design and the emphasis of each stroke within the painting.

## Gord Jones – Watercolour \$600.00 \*

Explore traditional and experimental techniques in watercolour painting and learn by demonstration, individual attention, and critique. You will explore the technique of painting loose while focusing on what is important within the picture plane for maximum impact. There will be solid instruction in preparatory drawing, value patterns, colour mixing, theory, and composition. Working from a photographic source, we will simplify the design with a quick value sketch then continue to a finished watercolour. Prepare to paint two complete works each day with assistance and constructive group critique. <https://white-pine-studio.square.site/>

## Sujesh Chitty V – oil \$600.00 \*

This workshop will be a practical course, focused on Alla Prima technique, direct use of Oil /water based oil/ Acrylic colours applying and blending while being fresh (wet on wet ) you will be learning about how to paint and capture the glimpse of a scene .Using some basic understanding of Composition, lighting, colours and values and materials.

Choosing a subject that is interesting and a medium that you feel comfortable with, We will be painting Cityscape/landscape. keeping in mind having no definite rules. Stay not to be too tight but focus on painting loosely and be open minded in your approach. Starting to make those first marks on a blank canvas, loosely composing the scene and using gestures like mapping where the light and darks. Constantly exploring the shapes, by the process of adding and removing the paint, checking the values and blocking negative space .Squint in order to simplify the values in the scene and to better see the whole. let the painting sometimes lead you to celebrate the accidental brush stroke and markings, using various materials and the process follows. keep constantly addressing till the finish and you could slowly see the painting evolving.

## Independent painters \$ 540.00 \*
