Powerful Acrylic Landscapes through Simplification of Design

With Keith Thirgood MGA, OPAS

In this workshop, Keith will demonstrate both in the studio and "en plein air" (weather permitting) Keith will guide participants in developing a loose open style of painting particularly suited for the Canadian Landscape by focusing on the essence of the scene that originally drew your attention, in the first place. Keith will help you to simplify and design your composition to best capture this focus. He will show a step-by-step approach that lays out what to do and when, but allows for individual expression and the development of a personal style. In the studio, you will learn a much reduced palette that allows you to mix any colour imaginable using an easy process and a unique set of pigments.

Keith is president of OPAS, the Ontario Plein Air Society and runs a number of ongoing workshops and art retreats. He also teaches acrylic painting for beginners and more advanced artists both privately and at various public venues.
